

TING

FROM TAIWAN
DVC - ARCHITECTURE

WHY DID YOU CHOOSE TO STUDY AT DVC?

To be honest, going to DVC wasn't really a choice for me. My dad picked the school for me because it has one of the highest transfer rate to the UCs.

WHAT DID YOU LIKE BEST ABOUT DVC?

DVC is really resourceful. It really prepares you to both transfer to a four-year university and getting into your career.

WHAT ADVICE WOULD YOU GIVE TO A NEW DVC INTERNATIONAL STUDENT?

DVC has a lot of opportunities. If you are really serious about building up your resume and transferring to your dream school, join in clubs, student government and talk to your instructors.

WHAT EXTRACURRICULAR ACTIVITIES WERE YOU INVOLVED IN WHILE STUDYING IN DVC?

I am a former president of Taiwan Discovery Club. And currently a Vice President of A.C.E. Club. I am student worker in ISAS and Lab Supervisor of the Engineering TechBuilding, supervising the use of laser cutter and 3D printer.

HOW WILL YOUR STUDIES/EXPERIENCE AT DVC HELP YOU ACHIEVE YOUR CAREER GOALS?

Working and studying at DVC really benefit me to familiarize with operating machines, providing professional customer services and problem solving skills.
